(b) Beginning on July 1, 2003, the State Board of Education shall: (i) use a district's average number of special education add-on weighted pupil units determined by the previous five year's average daily membership data as a foundation for the special education add-on appropriation; and (ii) implement a hold harmless provision for up to three years as needed to accomplish a phase-in period for school districts to accommodate the change in the special education add-on WPUs foundation formula.

- (c) A district's special education add-on WPUs for the current year may not be less than the foundation special education add-on WPUs.
- (d) Growth WPUs shall be added to the prior year special education add-on WPUs, and growth WPUs shall be determined as follows:

- (ii) When calculating and applying the growth factor, a district's S-3 total special education ADM for a given year is limited to 12.18% of the district's S-3 total student ADM for the same year.
- (iii) Growth ADMs are calculated by applying the growth factor to the S-3 total special education ADM of two years previous to the current year.
- (iv) Growth ADMs for each district are multiplied by 1.53 weighted pupil units and added to the prior year special education add-on WPU to determine each district's total allocation.
- (6) If money appropriated under this chapter for programs for students with disabilities does not meet the costs of districts for those programs, each district shall first receive the amount generated for each student with a disability under the basic program.
- (7) The number of weighted pupil units for students with a disability in self-contained classes is computed by multiplying the average daily membership of students with a disability in self-contained classes by 1.16984.
